

# MONTANA

## CLIMATE CHANGE

**47%** believe climate change is an extremely or very serious problem.

**64%**

have noticed significant effects from climate change over the past ten years.

## PROTECTING 30X30

**74%**

support a national goal of conserving 30 percent of America's land and waters by the year 2030.

**81%**

support the creation of new national parks, national monuments, national wildlife refuges, and tribal protected areas.

## WATER SUPPLY

**46%**

believe inadequate water supply is a serious problem.

**61%**

think that the low level of water in rivers is a serious problem.

## CONSERVATION

**63%**

believe that loss of habitat for fish and wildlife is an extremely or very serious problem.

**88%**

support constructing wildlife crossing structures across major highways that intersect with known migration routes.

**78%**

think more emphasis should be placed on conserving wildlife migration routes than on new development, roads, ranching, or oil and gas production in those areas.

## ENERGY ON PUBLIC LANDS

**65%**

support only allowing oil and gas companies the right to drill in areas where there is high likelihood to actually produce oil and gas.

**67%**

prefer that leaders place more emphasis on protecting water, air, wildlife habitat and recreation opportunities over maximizing the amount of land available for drilling and mining.

**93%**

support requiring oil and gas companies, rather than federal and state governments, to pay for all of the clean-up and land restoration costs after drilling is finished.
