*Starting in 2006-07, S.A.T. scores are out of 2400 rather than 1600, including 800 points for a written component to the test. To account for this change in scale, percentages are included next to each median test score indicating percentage of the total possible score (1600 for years prior to 2006-07 and 2400 for that year and forward).

Note: First-year students include only those students starting in the fall and do not include winter starts.
