State of the Rockies Summer 2005 Field Trips:

Sandy Pew's North Ridge Ranch 7/18/05

Sandy Pew's North Ridge Ranch is located about 30 miles north of Bozeman, MT. The land is used for grazing cattle and growing row crops, including an experimental grain developed by Montana State University. The Pews are strong supporters of placing their land under conservation easements to help slow urban development of farm and rangeland.
