Bloomberg News journalist

Come hear how...

Wall Street is Eating America

Heather Perlberg '05 on reporting about wealth for Bloomberg News

Join the Journalism Institute for a conversation with Perlberg about reporting on the world's richest and most powerful institutions. We'll learn how private equity firms, hedge funds, and banks have invaded every corner of our lives — in Colorado and across the nation — sometimes showing up in places we'd least expect to gobble up homes, doctors' practices, and even local newspapers.

Wall Street is eating America — and if you're not at the table you might be on the menu.
