

**Economics & Business Dept.**  
**2021-22 Faculty Thesis Advisors**

~~~~~

Dept. Professors advise theses across fields, but they do have particular expertise in certain areas. When indicating your preference for a faculty advisor, you may want to work with one who specializes in topics you find the most interesting.

We do what we can to honor thesis student choice for a particular faculty advisor, however because thesis students are evenly distributed among available dept. faculty advisors, it is not always possible to pair students with their preference.
