Kelly Hall ’06 brings 10 years of fundraising experience to the PIFP board, having raised millions for Colorado nonprofits. PIFP gave Kelly her start in nonprofits as a summer fellow with CityWILD, which sparked a passion for nonprofits and development. Since her fellowship, Kelly has worked with organizations focused on civil rights, public transportation, public education, and currently serves as a Development Officer for Centura Health - CHI Colorado Foundation.

Kelly received a bachelor’s degree from The Colorado College in neuroscience and earned a master’s degree in environmentally sustainable business from Prescott College. Kelly grew up in Ouray, Colorado, and enjoys climbing, hiking, and skiing Colorado’s mountains with her husband Stephan and their Cocker Spaniel Annie. When she’s not exploring Colorado’s outdoors, Kelly volunteers with the Denver-based food justice nonprofit, The GrowHaus.
