National Public Lands Helps the Wyoming Economy

Greatest proportion of the voters who perceive an economic benefit from national public lands in their state

79%

Oppose State Takeover of Public Lands

"Some Members of Congress have proposed giving Wyoming state government control over national public lands, such as national forests, national monuments, and national wildlife refuges in its borders. The state government would decide the future management of the lands, but state taxpayers would pay all costs, including the cost of maintenance and preventing and fighting wildfires."

54%

Cheyenne

Tied with Montana for greatest proportion of the electorate which identifies as a "conservationist" (71%)

❖ **72%** support presidential authority for National Monument designation

❖ **76%** support treating wildfires as natural disasters in budgeting;
