

Gender Neutral Housing Guide

Colorado College offers the following Gender Neutral Housing options:

For New Students:

- Students requesting a single occupancy room for gender neutral housing purposes should contact the Room Assignment Manager in writing with this request at reslife@coloradocollege.edu.
- Students requesting a double or triple room may name a mutually agreed upon roommate and be placed with that student, regardless of gender. Please indicate the name(s) of agreed upon roommates in your ON-LINE Housing form.
- PRIDE LLC supports students that do not have a mutually agreed upon roommate. The Room Assignment Manager will work very closely with the student for placement. Please contact reslife@coloradocollege.edu for more information and support.

For Current Students

Students are allowed to name any roommate for gender neutral housing purposes, regardless of their gender identity.

- Current students may go through any selection processes with a desired roommate of any gender.
 - Apartment selection- by application and lottery
 - When their lottery number is called, students may select a single bedroom in an apartment if one is available.
 - If interested in a double room with a roommate of an opposite, during apartment selection both roommates will indicate their preference in the same fashion as other students participating in room selection efforts.
 - Theme Housing- by application and placement
 - Students can apply and request a single; a single is not guaranteed but may be an option through the application process.
 - Students can apply and name a mutually agreed upon roommate(s), regardless of gender.
 - Both students will need to complete the on-line application.
 - If the students elect to apply for a Language Theme House, both students may be invited to a process interview conducted by the Language Theme House selection committee – this is the same standard for all students applying for specific Language Theme Houses.
 - Traditional Room Selection
 - All students who have completed a housing agreement will get a time slot for online room selection
 - If a single is available at the time of selection, a student may select the single.
 - If a student desires a double or triple room with a selected roommate(s), they must **all** email the Room Assignment Manager, prior to the start of room selection so that we can manually enter the request. Students will come to the Housing & Conferences office located in Bemis Hall at the earliest roommate's time slot to select an available room together. *Please note that this a temporary process as we transition to a different Housing Assignment software.*

Roommate conflicts, concerns, mediations, wait list requests, etc will be handled according to standard Residential Life & Campus Activities and Housing & Conferences procedures.
