**Fellow Name:** Ashley Kim

**PIFP Partner Organization:** National Conference of State Legislatures: Health Program

**Please give a brief description of what you do for your organization:**
I am a fellow for NCSL’s health program, with a focus on primary care. I attend conferences with public health officials and state legislators, and take notes during these meetings. Furthermore, I research and create reports for state legislators who need more information on a specific legislation. I also work to keep NCSL’s website updated and organized.

**What’s the most interesting thing you’ve learned in your fellowship so far?**
The cooperation of various individuals from different fields is essential in creating a major change. NCSL, as a bipartisan NGO, works to bring these different people together, which is an important part of the process.

**Why did you want to become a PIFP Fellow?**
I have previously worked with a nonprofit organization, and I valued its mission and effect on the community. Thus, I wanted to further my experience in this field by working with another organization focused on serving the public.

**What activities outside of your work do you enjoy?**
I enjoy writing, reading, skiing, and traveling.

**What is something most people would be surprised to know about you?**
My first language is not English; I spent the majority of my life in South Korea.
