DEPARTMENTAL AWARDS

ANTHROPOLOGY, presented by Professor Mario Montaño

H. Marie Wormington Award
The H. Marie Wormington Award in Anthropology was established in 1979 by Wormington and her husband, George D. Volk, to honor the outstanding graduating senior in anthropology. Wormington, who died in 1994, was a former curator of archaeology at the Denver Museum of Natural History and an adjunct professor at Colorado College. Her own distinguished career was devoted to the Paleo-Indian period of New World prehistory, but it was the couple’s desire to recognize student achievements in the discipline as a whole. The criteria for the Wormington Award are a high academic record, notable aptitude for and accomplishment in field research, leadership and participation in the department’s programs, and dedication to the discipline of anthropology.

The Courtney Cusick Memorial Prize
The Courtney Cusick Memorial Prize was created in 2003 in memory of anthropology major Courtney Cusick, who died tragically in an automobile accident in January 2002, in the middle of her senior year. An avid and accomplished naturalist even before entering college, Cusick left her friends, fellow students, and professors impressed with her hunger for knowledge and dedication to serious academic study. The Cusick Prize is awarded for the outstanding senior paper in anthropology.

Enderson Award in Conservation Biology
The Enderson Award in Conservation Biology honors Professor Jim Enderson, who joined the Biology Department in 1962, long before it was fashionable to call oneself a “conservation biologist.” Throughout his career, his research centered on the precipitous declines of birds of prey, especially the peregrine falcon. He was the first to breed the temperate North American peregrine in captivity, a line used extensively in restoration of the western population. He served on several recovery teams and working groups for endangered species. At Colorado College he inspired students through independent projects to pursue careers from botany to ornithology, in the lab and in the field. In keeping with his scholarship and breadth as a biologist, the Enderson Award honors a junior or senior biology major who, in the opinion of the faculty, has shown commitment and productivity in an original research project in conservation biology. Candidates are eligible if their work has conservation implications, whether the focus is molecular, organismic, ecosystem, lab, or field.

The Tashjian-Crecelius Family Prize for Women in Science, presented by Professor Peggy Daugherty
The Tashjian-Crecelius Family Prize for Women in Science was established in 2002 by Daniel N. Crecelius (Class of 1959) and his wife, Anahid Tashjian Crecelius, in honor of Anahid’s mother, Elize Tashjian, and her deep commitment to women’s educational opportunities and achievement. The prize is awarded annually to a woman student who is a major in one of the natural sciences and an international or minority student. The award supports meaningful scientific research or a project to further understanding of the natural sciences. It recognizes and honors the work of women in the community of science.

The following awards will be presented by President Jill Tiefenthaler:

Dreamkeeper Award
This award is presented to a Colorado College student who has demonstrated an active commitment to addressing issues of multiculturalism and improving the quality of campus life for historically oppressed peoples. The award is a monetary scholarship for books in the Colorado College bookstore and is awarded by the Department of Residential Life and Housing.

Mary Stearns Barkalow Award
Each year the college’s professional housing staff selects for the Barkalow award a senior woman who has made significant contributions to residence halls and campus life through positions of leadership. Barkalow was head resident of Bemis Hall from 1934 until her retirement in 1958. Following her death, her family established this award and asked that recipients demonstrate a commitment to working for personal development of campus women through the agencies and organizations of the campus, demonstrate generosity and honesty in their work with other students, and demonstrate a sense of humor — all characteristics Barkalow manifested.

J. Juan Reid Award
Juan Reid was a 1932 graduate of the college. An excellent student and athlete during his undergraduate years, he continued to serve Colorado College for nearly half a century as a coach, dean of men, and director of alumni relations. Juan Reid wrote the official history of the college’s first 100 years, “Colorado College: The First Century, 1874–1974.” This award is presented to the senior best combining scholastic excellence and involvement in extra-curricular activities. Selection is made by the deans of the college and the vice president for student life.

Van Diest Award
The Van Diest Award is given to an outstanding athlete who demonstrates sound character, scholarship, and citizenship. Recipients are selected by the Athletics Department staff.

Laura Golden Award
Awarded to the woman athlete, who by her excellence in athletics, leadership, and college contributions, best exemplifies the high standards set by Laura Golden.

The Nelson-Cisneros Award
The Nelson-Cisneros Award is presented annually to a member of the faculty or staff of Colorado College who best exemplifies the qualities of Associate Dean Victor Nelson-Cisneros in supporting the diversity of our campus community.

Crown-Goodman Scholarship Award
The Crown-Goodman Scholarship Award was established in 1990 to recognize the accomplishments of deserving Colorado College students. The selection of recipients is based on the students’ academic record and contributions to the total life of the college. These scholarships are intended to reduce the loan component of the recipients’ financial aid award in their senior year. Recipients: Nicollele Violante, Chelsea Brown, Forest Thompson, Porsche Chitmon-Turner, Hannah Trim, Ellery Miller, Joshua Mares, Alena Ede, Kathryn Perry, Benjamin Grund, Julia Belamarich

Lloyd E. Worner Teacher of the Year Award, presented by Nathan Lee
No professional touches us as much as the teacher. From our childhood to our college graduations, we are aided and influenced by teachers. And of those, there are some who particularly influence our course in life, our choices, and our actions. Here at Colorado College, there are a great number of wonderful professors who have profound effects on students every day. With this award we wish to acknowledge one of the greatest of those. Students have chosen this professor based on the intelligence, caring, and exceptional qualifications that he or she brings to teaching.
