

Edge INTERNSHIP PROGRAM

As an intern with Cisco, I will develop software and tools in support of design, infrastructure and technology platforms while tackling problems, and debugging software programs for enhancements and new products.

I'm most excited about getting to support cisco's mission in using computer science to build a bridge to possible while getting experience in software engineering and working alongside incredible leaders.

Brianna Fuentes '21

Rising Junior

Majors: Computer Science & Mathematics

Cisco Systems

Denver, CO

AI & Machine Learning Engineering Intern

Edge Internship Program

Class of Summer 2019

Brianna is a proud Texan from the small town of Waller. She is a member of Best Buddies and Somos Latinx Group, and she serves in the Delta Gamma Fraternity. Additionally, she works as an Admission's Ambassador and Outreach and Access Intern in the Admission Office.

She is passionate about mentorship and worked as a New Student Orientation Leader for Colorado College and serves on the President's Council. Brianna has studied abroad in Spain and Argentina where she shared and grew her passion for hispanic culture. In her free time she enjoys dancing, crafting, hiking, and consuming Chick-fil-A with vigor.
