

**COLORADO
COLLEGE**

Edge INTERNSHIP PROGRAM

As an intern with GPI Companies, I will join a team of seasoned real estate professionals to assist in repositioning, redeveloping, and enhancing capital projects across the greater LA area.

I'm most excited about having the opportunity to both develop the technical abilities required to be successful in the financial world, and the professional skills needed to have a long and fulfilling career.

Matt White '21

Rising Junior

Major: International Political Economics

Minors: Japanese Language & Asian Studies

**GPI Companies
Los Angeles, CA**

Real Estate Project Intern

Edge Internship Program

Class of Summer 2019

With an exemplary work ethic and passion for success, Matt is driven by a desire to learn about the world and what it has to offer. As a sea kayak guide at home in Boston, he developed the foundational skills of strong leadership, communications, and risk management that he transfers to every aspect of his life today. Passionate about investing in a future with a low carbon economy, Matt is the manager of the College's Investment Club ESG portfolio. He hopes to bring his experience to the capital markets division of real estate investment where he can positively impact the development of urban centers across the county.

Matt is excited to study abroad next year at Waseda University in Tokyo, where he will take courses in urban planning, development, international financial markets, and Japanese language and culture.
