

Edge INTERNSHIP PROGRAM

Sam Mayer '20
Rising Senior

Major: Economics

Cisco Systems
Denver, CO

Business Operations Analyst Intern

Edge Internship Program
Class of Summer 2019

As an intern with Cisco, I will be assisting with the implementation and support of business information across the organization. I will work to identify problems and opportunities and help provide solutions that will achieve the business' goals.

I'm most excited about having the opportunity to put the skills I've learned in my major to the test in a professional setting.

Sam Mayer thinks that life is all about relationships: cultivating them, relying on them, and preserving them. As a result, there is nothing more important to him than his friends, his family, and his countless mentors. He grew up in the 8,000 person village of Hastings on Hudson, New York, attended his small and local public High School, and is a current Junior Economics major at Colorado College.

In his free time he loves to do any form of exercise, whether it's practicing with his rugby team or simply spending an hour in the gym. He is an avid, albeit horrible, dancer, binge watches Netflix comedy specials, and is the son of two television journalists.
