WAYS TO ENGAGE IN

Jewish Life

Jewish Life is vibrant and diverse at Colorado College. Fostering community, facilitating religious and spiritual opportunities, providing spiritual care, and encouraging educational engagement through opportunities like involvement with Hillel, studying Hebrew language, courses related to Judaism and Jewish culture through courses in the Religion, Music, and History Departments. It also has opportunities to connect with the wider Jewish community in Colorado Springs and opportunities via the Center for Global Education & Field Study for study abroad programs to enrich academic and personal learning in Europe and Israel. Whether Reform, Conservative, Modern Orthodox, part of the Renewal movement, Reconstructionist, or curious about Judaism, you are welcome to participate in Jewish Life at Colorado College!

Hillel's mission is to create an environment in which students of a Jewish religious or ethnic background can grow socially, intellectually, and spiritually with the campus community of Colorado College. Hillel strives to enrich the lives of Jewish students interested in the Jewish heritage by providing a welcoming atmosphere to Jewish values and practices.

Hillel at CC aims to be an all-inclusive organization that meets the needs of all of its members. Through service and a commitment to the community, we are a voice at the college that works closely with the Chaplain’s Office to welcome all people. Though we are denominationally-based, we are not denominationally-exclusive and we strive to share our culture and religious beliefs with others to promote understanding and tolerance.
