

August 24, 2020

Dear CCCC Parents,

Colorado Department of Public Health and Environment (CDPHE) released updated COVID-19 guidance on August 13, 2020, for K-12; Child Care facilities are now included in this guidance. Attached for your reference is the CDPHE guidance document. CDPHE COVID-19 guidance is in addition to our regular illness/exclusion guidelines and may change without advance notice.

Children/staff with any of the guidance criteria will be excluded from care/work for at least 24 hours after fevers or exclusionary symptoms have resolved without the use of fever reducers/medicines. Some exclusionary criteria require longer exclusions, or a clear diagnosis before returning to care and or work.

As a reminder, please keep your children home if they are ill. Any child excluded because of illness while at the center will be removed from the classroom awaiting pick-up. If you are unsure if you should keep your child home, please contact me before arriving to the center.

Please contact me if you have any questions.

Thank you for your continued support of the Children's Center,  
Danielle
