

Study Away Semester: Cost & Aid Worksheet for Partner Programs (2024-2025)

*Students should complete as much of this worksheet as they can, referencing the website and budget information provided by your selected study away program or university. Then you should make an appointment to meet with CC Financial Aid to go over your worksheet and complete the lower portion. The worksheet helps you gather information about your new Total Cost of Attendance for your study away semester/year on a partner program, and any aid adjustments. **Your EFC (expected family contribution) remains the same when studying away.***
