

Global Internship Opportunities on an Off-Campus Study Semester Away

The following Colorado College approved off-campus study semesters (domestic and international) offer internships as part of the semester or year experience away from CC. These are typically offered in conjunction with a course for academic credit, alongside your schedule of other academic coursework. These opportunities may be a traditional internship in a business or NGO setting, as well as community-based learning placements. See the program website for details, as requirements and prerequisites vary widely. Visit www.coloradocollege.edu/globalandfield to learn how to begin the application process.
