

FELLOW PROFILE

Fellow's Name:

Carter Eng

Fellow's Partner Organization:

The Greenway Fund

What are your main responsibilities as a PIFP fellow?

I am a member of the financial subcommittee for Creek Week 2018. I also am pursuing creative funding opportunities that would help to develop and redevelop the Greenways of Colorado Springs.

What's the most interesting thing you've learned in your fellowship so far?

I have had the privilege of seeing first-hand how the voter supported storm water fee (ballot issue 2A) will be collected and used when it is instated in early July 2018.

Why did you want to become a PIFP Fellow?

I had done previous work part time with a non-profit organization, but I wanted an opportunity to dive in and be immersed in a non-profit organization. A PIFP Fellowship allowed for a deeper understanding of the innerworkings of an environmental non-profit.

What activities outside of your work do you enjoy?

I love board games (Dominion and Settlers of Catan in particular), drinking coffee and I have recently gotten into smoking meats. I also enjoy a good book.

What is something most people would be surprised to know about you?

I have been to all 50 of the United States.
