

FELLOW PROFILE

Fellow's Name: Hannah Schultz

Fellow's Partner Organization:

Colorado Department of Health Care Policy and Financing

What are your main responsibilities as a PIFP fellow?

Policy research, grant writing, and coming up with useful applications for survey data.

What's the most interesting thing you've learned in your fellowship so far?

I've learned a lot about the complexities of Colorado's Medicaid Program and the home and community based services offered to individuals living with disabilities.

Why did you want to become a PIFP Fellow?

I became a PIFP fellow to explore if the non-profit sector was a good fit for me. The fellowship at the Department of Health Care Policy and Financing seemed like the perfect way for me to combine my interest in public health and experience working with individuals with disabilities while learning more about health care policy.

What activities outside of your work do you enjoy?

I enjoy hiking, reading, and going for runs.

What is something most people would be surprised to know about you?

Most people would be surprised to know that I can go for about twenty minutes without blinking. My mom would occasionally have to remind me to blink when I watched movies as a kid.
