

## **Nina Roumell '13**

Nina graduated with a bachelor's degree in neuroscience from Colorado College, before becoming a yearlong PIFP at Colorado Consumer Health Initiative. After spending a few years working on health policy, advocacy, and research at the state level, she was ready to be in a more community facing organization. Nina was quickly drawn to The GrowHaus, a non-profit urban farm, educational center, and marketplace working to ensure lasting access to healthy food. At The GrowHaus, Nina works to help individual and potential donors understand the impact of their support.

Nina enjoys cooking and tasting delicious food, running in the mountains, and spending time with friends and family. She is also a proud volunteer soccer and basketball coach at The Boys and Girls Club.
