

## Programmatic Volunteering Opportunities: More Information

Intern Teams	At-A-Glance	What You Might Work On...
<b>Food</b>	This team will support and lead new and on-going food-focused/related efforts across the campus. The team will heavily focus on strengthening the OOS's engagement with food-focused groups and support a wide-range of food-related issues and initiatives.	<ul style="list-style-type: none"> <li>• Support various food-related/focused programming as identified by intern throughout the academic year</li> <li>• Lead short-term campaigns related to food issues on campus or in the community</li> </ul>
<b>STARS</b>	This team will work to collect and report data for the STARS report. STARS is the Sustainability Tracking, Assessment, and Rating System, administered by the Association for the Advancement of Sustainability in Higher Education (AASHE). It is a comprehensive, self-reporting metric that rates institutions across broad sustainability efforts.	<ul style="list-style-type: none"> <li>• Reach out to institutional partners to collect specific data points for STARS</li> <li>• Responsible for a specific category of data collection, formatting, and revision</li> <li>• Support writing the State of Sustainability</li> </ul>
<b>Green Programs</b>	This team oversees all Green Programs: Green Office, Green Room, Green Events, Green Home, and Green Athletics. This includes reviewing program logistics, reaching out to campus partners, and create ongoing marketing and outreach to CC community to increase engagement.	<ul style="list-style-type: none"> <li>• Certify GP participants and coordinating their prize collection at the OOS</li> <li>• Update packet and online information throughout the academic year</li> <li>• Reach out to various on-campus groups to increase engagement with these programs</li> </ul>
<b>Greenhouse Gas Inventory</b>	This team will lead the collection, organization, and calculation of CC's annual greenhouse gas emissions. This teams works to track CC's progress in lowering our overall emissions utilizing SIMAP, which is an online calculator to assist in converting emission sources into equivalent metric tons of carbon dioxide.	<ul style="list-style-type: none"> <li>• Work to collect specific data points and uploading them in SIMAP</li> <li>• Create and distribute annual surveys</li> <li>• Support writing the Annual GHG Emissions report that is published to the campus</li> </ul>
<b>Communications</b>	This team will lead and support all communication and marketing efforts within the Office of Sustainability. This includes designing graphics, creating content for our social media channels, updating our website pages, writing stories, and putting together newsletters related to sustainability efforts, and working with other interns on various campaigns throughout the year.	<ul style="list-style-type: none"> <li>• Support the marketing efforts of OOS events, programs, initiatives through various channels</li> <li>• Write and create content for blockly newsletters and social media channels</li> <li>• Create graphics to support intern programming</li> </ul>

<p><b>Student Life &amp; Leadership</b></p>	<p>This team will coordinate with the Student Life division to implement ongoing campus sustainability outreach activities and annual events. Activities include leading Earth Week, Snow Day, Environmental Action Summit, etc. This team will work to build and strengthen current relationships with various offices/organizations throughout the academic year.</p>	<ul style="list-style-type: none"> <li>• Support the coordination of annual events through the OOS during the academic year</li> <li>• Identify campus partners to work with and create outreach activities</li> <li>• Plan opportunities with other intern teams for cross-collaborative efforts</li> </ul>
<p><b>Transportation</b></p>	<p>This team will lead efforts to spread awareness for Mountain Metro, increasing engagement with PikeRide; while strengthening our bicycling infrastructure and support, and develop the OOS Voluntary Travel Offset Program. The team will work with various on-campus departments and offices to support and track programming, market, and promote alternative transportation initiatives, and engage with the campus community around transportation planning.</p>	<ul style="list-style-type: none"> <li>• Spread awareness for Mountain Metro</li> <li>• Increase engagement with PikeRide through various campaigns and programming throughout the academic year</li> <li>• Support strengthening our bicycling infrastructure through strategic planning with institutional stakeholders</li> </ul>
<p><b>Waste Programming &amp; Outreach</b></p>	<p>This teams leads waste efforts across campus to decrease the amount of waste generated on campus and increase current rates of waste diversion by overseeing several waste programs and initiatives in the Office of Sustainability.</p>	<ul style="list-style-type: none"> <li>• Support the coordination and collection of e-waste across campus</li> <li>• Coordinate various campaigns with institutional partners to create the collection of additional waste streams on campus</li> <li>• Participate in educational efforts across campus offices, departments, groups, etc. around waste diversion</li> </ul>
<p><b>Waste Signage &amp; Education</b></p>	<p>This team leads efforts to record the landscape of the waste infrastructure on campus. They will work with Facilities Services in purchasing and coordinating the implementation of all updated waste signage and standardization of bins in academic and administrative buildings on campus.</p>	<ul style="list-style-type: none"> <li>• Support the implementation of all updated bin infrastructure and signage across all academic and administrative buildings on campus</li> <li>• Participate in waste audits and additional signage needs in various locations indicated by Sodexo and/or Facilities Services</li> <li>• Perform waste audits as needed</li> </ul>
