- Elliott: Sakina you told me about a committee about post-election stuff. Any updates?
- Amy: There is a resource guide and students should download rave to get updates about shelter in place, evacuate, etc. We are talking about putting some more explicit language about the emergency procedure. We are also talking about our relationship with CSPD and the possibility of there being more presence depending on what happens in the election.
- Fer: Just in conversations I have had in Nasu, one thing I have gathered is there are ongoing investigations to weed out harmful groups. That was reassuring
- Amy: We are in communication with them about that. A lot of the concern is about what if this or what if that. When driving to the polling place we have a security detail in place.
- Sakina: Please let me know if you have any ideas, please let us now
