SENIOR CLASS MOTTO

“Caring for myself is not self-indulgence, it is self-preservation, and that is an act of political warfare.”

Audre Lorde

AMERICA, THE BEAUTIFUL*

(“O Beautiful for Spacious Skies”)

Music written by Samuel A. Ward (1847–1903)

*Words written by Katharine Lee Bates
(1859–1929)*

Selected stanzas

O beautiful for spacious skies,
For amber waves of grain,
For purple mountain majesties
Above the fruited plain.
America! America!
God shed His grace on thee,
And crown thy good with brotherhood
From sea to shining sea.
O beautiful for pilgrim feet
Whose stern impassioned stress
A thoroughfare for freedom beat
Across the wilderness.
America! America!
God mend thine every flaw,
Confirm thy soul in self-control,
Thy liberty in law.

**In 1893, Katharine Lee Bates was a visiting professor of English literature in Colorado College’s Summer Session. Bates and a group of faculty members traveled by prairie wagon and mules to the summit of Pikes Peak. There, inspired by the magnificent panorama, the poet conceived the initial verses of “America, the Beautiful.” It was published in 1895 to national acclaim.*

COLORADO COLLEGE ALMA MATER

(“O Colorado College Fair”)

Words and music written in 1953 by Charles

*Hawley ’54 and Professors Earl Juhas
and Albert Seay*

O Colorado College fair,
We sing our praise to you;
Eternal as the Rockies,
that form our western view;
Your loyal sons and daughters
will always grateful be;
The college dear to all our hearts
is our C.C.
O Colorado College fair,
Long may your fame be known;
May fortune smile upon you,
and honor be your own;
Our Alma Mater always,
Your loyal children we;
Together let us face the future,
Hail C.C.

***Audience: Please join us
in singing.***

SENIOR CLASS GIFT

Colorado College Mental Health Promotion Fund:
To support mental health promotion and suicide prevention efforts on campus. This fund may be used for, but is not limited to, investing in all members (i.e., faculty, staff, and students) of the campus community with mental health training (i.e., identifying the signs and symptoms of mental health challenges or illness and how to respond), as well as bringing speakers or programs to campus that address mental health.

LAND ACKNOWLEDGEMENT

We acknowledge that Colorado College is located within the unceded territory of the Ute Peoples. Other tribes who historically use, and continue to use, the land include the Apache, Arapaho, Comanche, and Cheyenne. We ask you to honor the ancestors of our various peoples, nations, tribes, and families whose struggles for justice on this land inspire us.

IMPORTANT INFORMATION

Photography: A professional photographer will be taking photos of each graduate. Photos will be available for purchase at www.gradimages.com approximately two weeks after the event. Visitors consent to appear in documentation and media and its future use by Colorado College.

Livestream: The 2023 Commencement ceremony will be livestreamed at www.coloradocollege.edu/live starting at 8:30 a.m., Mountain Time, on Sunday, May 28.

Accessibility: Sign language interpreters will be displayed on the center-hung video scoreboard. Guests may view captions on their mobile devices via the livestream at www.coloradocollege.edu/live. Assistive listening devices and large print programs are available at Guest Services.

Dear Class of 2023,
Congratulations! You have reached one of your life's great milestones — your graduation from Colorado College.
You achieved this while building a thriving

community — even when obstacles were thrown in your way. The global pandemic disrupted your first academic year, and you were dispersed. It may have felt like your friendships would never gel, or that you'd never find your footing at CC. But you carried on, through Zoom classes and student organization meetings, and connected as meaningfully as possible.

And then, once you could be on campus again, you made every moment count.

Perhaps because of those early challenges, yours is a class that understands the importance of relationships, of supporting one another, and of caring for one another. You understand the power in collaborating and creating change.

You successfully rallied for more comprehensive mental health services. You helped CC have one of the highest college voter turnout rates in the country. You contributed to the greater Colorado Springs community, cleaning up creeks, court watching, mentoring middle schoolers, and working at soup kitchens.

Here on campus, you cheered for the Tigers on fields, courts, and the hockey rink; you were awed by your friends' dance, music, theater, and comedy performances; you were moved by their writing and inspired by their art.

You were transformed in the classroom and during field study, in discussions and experiences that pushed you. Guided by brilliant professors who dedicated themselves to life-changing teaching, you expanded your world, your mind, and your horizons.

You are the new leaders who will speak up and work together to address climate change, act against racism, bridge political polarization, and advocate for mental health. You will take all that you learned at CC into the world.

Today, you join our community of CC alumni. You built lifelong friendships here, and you will

continue to travel, explore, and have fun together.
We are proud of you and excited for your future.
Colorado College is always your home, a place
and a community where you belong. Keep in
touch, and come back often. We'll be so excited
to see you!

Sincerely,

JEFF KELLER '91 P'23

COMMENCEMENT SPEAKER ELIZABETH “LIZ” CHENEY ’88

Liz Cheney served as the U.S. representative for Wyoming’s at-large congressional district from 2017 to 2023. She chaired the House Republican Conference, the third-highest position in the House Republican leadership, from 2019 to 2021, and served as the Vice Chair of the Select Committee investigating the January 6 insurrection. She was also a member of the House Armed Services Committee, China Task Force, Natural Resources Committee, and the House Committee on Rules. Cheney served previously at the State Department as the Principal Deputy Assistant Secretary of State for Near Eastern Affairs, and in positions for USAID and the Department of State working in Poland, Hungary, Russia, and Ukraine. Cheney practiced law with White and Case and at the International Finance Corporation. A specialist in national security and foreign policy, she is the co-author, along with her father, former Vice President Dick Cheney, of “Exceptional: Why the World Needs a Powerful

America.”

Cheney received her Bachelor of Arts degree in political science from Colorado College and received her Juris Doctor from the University of Chicago Law School. In 2022, Cheney, along with Ukrainian President Volodymyr Zelensky, received the John F. Kennedy Presidential Library’s prestigious Profile in Courage Award, with a commendation for her “consistent and courageous voice in defense of democracy.”

HONORARY DEGREE | MIKE EDMONDS

Mike Edmonds is senior vice president at Colorado College, where he has been employed since 1991. Most recently, he was acting co-president of the college, and as the first Black president in the college’s 147-year history, he helped lead the campus through the height of the COVID-19 pandemic. Prior to assuming the presidency, Edmonds served as Dean of Students and Vice President of Student Affairs.

Originally from Clarksville, Tennessee, Edmonds holds a B.A. in Speech and Theatre, an M.A. in Higher Education, and a Ph.D. in Higher Education from the University of Mississippi, where he was inducted into the Ole Miss Hall of Fame, the School of Education Hall of Fame, and most recently the inaugural College of Liberal Arts Hall of Fame.

As an educator, Edmonds routinely taught courses for the Colorado College Economics and Business and Theatre and Dance departments focused on business communications, theatre appreciation in Canada, public speaking, drama, and rhetoric. He has served as a Summer Forensics Institute faculty member at the University of Iowa, teaching forensics to high school teachers and students. He was also inducted into the National Speech and Debate Association Hall of Fame.

Edmonds has been an active volunteer in both Colorado and Mississippi and has served on more than 25 boards and committees for organizations

including Cheyenne Mountain Zoo, Great West American Cancer Society, University of Mississippi Chancellor's Trust Foundation, the Colorado Springs Airport, Memorial Hospital, Colorado Springs Philharmonic, and the National Speech and Debate Association. He is also the recipient of numerous awards and honors from Emory University, Uplift Foundation, American Cancer Society, NAACP, Urban League of the Pikes Peak Region, Tutmose Academy, and more. He was recently elected as a Trustee of El Pomar Foundation, one of the largest and most impactful philanthropic foundations in Colorado.

HONORARY DEGREE | ROBERT G. MOORE

Robert G. Moore is retiring this year as senior vice president for Finance and Administration, chief financial officer, and chief operating officer of Colorado College, concluding a nearly 50-year professional career serving state government and higher education administration, all in Colorado.

He joined CC in January 2010 and was an instrumental force in the unprecedented transformation of the CC campus. Among the projects completed during his tenure are the expansion and renovation of Tutt Library, the largest net-zero energy use academic library in the nation; the Adam F. Press Fitness Center and renovation of El Pomar Sports Center; the Ed Robson Arena; the Mike and Barbara Yalich Student Services Center; and the East Campus Housing Community. He also successfully managed the alliance agreements with the Colorado Springs Fine Arts Center and Colorado Public Radio for KRCC.

Moore was acting co-president of the college for a year beginning in July 2020 during the height of the global pandemic. He helped the campus community and Board of Trustees navigate the unknowns of the COVID-19 virus while preserving the best CC education experience possible and managing the financial impacts to the college

ensuring there were no layoffs or staff furloughs. He is a national leader in his field, serving as chair of the National Association of College and University Business Officers and president of the Western Association of College and University Business Officers. He serves on the Board of Directors of Colorado Public Radio, is a past member of the Board of Directors for University Hospital, and served on the Douglas County School Board.

Moore is Vice President Emeritus from the University of Colorado where he served as the Vice President for Finance and Administration. He also served as Vice President for Finance and Operations at the Colorado School of Mines, Deputy Executive Director at the Colorado Department of Higher Education, and Staff Director for the Joint Budget Committee of the Colorado General Assembly.

HONORARY DEGREE HILAREE JANET NELSON '95

"I don't think there is anything wrong with wandering, taking risks and not settling for things that don't satisfy you...I want it to be true that I can survive outside the traditional structure." From the journal of Hilaree Janet Nelson, 11-2-1992

Hilaree Janet Nelson died September 26, 2022, skiing from the Himalayan summit of Manaslu, the world's eighth highest mountain. She was born on Dec 13, 1972, to Stanley and Robin Nelson, and was the youngest of three children. Hilaree credited family boat trips and skiing at Stevens Pass for sparking her passion and desire to explore the wilderness.

Hilaree studied biology at Colorado College where she became not just a student, but a student of life. She learned to question herself and the world around her. The friends she made and the lessons she learned lasted a lifetime.

After graduation, she moved to Chamonix, France, and began her career in the mountains, winning the European Extreme Ski Championships and taking her first big mountain trip to India. Hilaree was one of the most prolific ski mountaineers of her generation, the captain of The North Face Athlete Team, known for making artful turns in improbable places, with dozens of first descents from atop major and lesser-known peaks. Her perseverance and passion for exploring the mountains earned her recognition as National Geographic's Adventurer of the Year in 2018.

Hilaree settled in Telluride, Colorado, where her most fulfilling role was being a mom to her boys Quinn and Grayden. Her time with them was spent coaching sports, exploring the mountains, surfing, rock climbing, playing board games and cards, and loving them with all her heart.

Hilaree led her life with kindness and humility. She inspired people and athletes of all levels, always encouraging them to reach their own personal summits, whatever that may be.

HONORARY DEGREE | ROBIN WILSON

Robin Wilson is an Emeritus Professor of Pure Mathematics at the Open University, U.K., where he produced teaching material for thousands of adult students. A former Fellow of Keble College, Oxford University, he was also professor of geometry at Gresham College, London, founded in 1597 to present free lectures to the general public.

He received his undergraduate degree in mathematics from Oxford, and his doctorate from the University of Pennsylvania for a thesis in number theory; his interests then switched to combinatorial mathematics and graph theory and to their historical development. He later earned an Open University degree in Humanities with Music and served as President of the British Society for the History of Mathematics.

Robin Wilson has written and edited over 50 books on mathematics and its history, including five books with mathematicians at Colorado College. Widely admired for communicating and popularizing his subject, he has received awards from the Mathematical Association of America for his "outstanding expository writing" and the Institute of Combinatorics and its Applications for "outreach in combinatorics," and his writings range from Lewis Carroll's mathematical world to sudoku puzzles.

His deep connection with Colorado College dates from 1981, when he was a featured speaker at a Rocky Mountain Mathematical Association meeting at the college. This led to many further visits to teach 36 blocks, mainly in mathematics but also in the Departments of History (on Isaac Newton) and Music (on Music & Mathematics and the Gilbert & Sullivan Operas), inspiring generations of CC students through his love of teaching, learning, and outrageous puns. He also performed regularly with the CC Choir and the early music group Collegium Musicum. Robin is grateful to the college for four decades of delightful visits to Colorado and for the many long-term friendships that he has developed here.
