

April 20, LPOG agenda and meeting minutes

Agenda: *Continue working on general policies and procedures.*

We finalized the Block-Long reservations for classes, Room Reservations, Other Reservations, and Cleanup policies (see the draft policies document on the website for specifics).

We also discussed signage for rooms in the new building, which is being finalized right now. Lisa, Chad, and Traci will all look at the drafts and send comments to the architects before their visit to campus on weds, 4/26.

We had a brief discussion about how LPOG will interface with the ITAL Board in terms of governance. The Core LPOG members will talk about that further and work on those politics.
